CALIFORNIA HEALTH CARE OPTIONS

SECURE DATA EXCHANGE SERVICES

The purpose of this User Guide is to provide instructions for our partners to securely transfer and/or retrieve files from the CA HCO Secure Data Exchange Services (SDES) Website. The application utilized to facilitate the file transfer is called MOVEit®.

A. ABOUT MOVEit®

MAXIMUS has adopted a secure enterprise wide solution for secure file transfers called MOVEit®.

MOVEit® safely and securely collects, stores, manages, and distributes sensitive information between MAXIMUS internal and external entities. Web browsers and no cost/low cost secure FTP clients can quickly, easily, and securely exchange files over encrypted connections. All files “at rest” are securely stored using FIPS 140-2 validated AES encryption, the U.S. Federal Government encryption standard.

MOVEit® provides tools to automate the most complex data transfers and workflows delivering true “anywhere-to-anywhere” transfer capabilities with minimal operational or system resources.

B. MAXIMUS HELP DESK

Should you require assistance, please contact the MAXIMUS California Health Care Options Information Systems Help Desk by calling (916) 364-2000 between the hours of 8:00 a.m. and 5:00 p.m. Monday through Friday; excluding State Holidays or e-mail your questions to cahco_is_helpdesk@maximus.com

C. SECURITY NOTICE

Authority to use this system is granted by the California Department of Health Care Services (DHCS) and may be revoked at any time. The use of this system is limited to authorized users only. Users of this site are bound to the following:

1. Utilize any data obtained for its intended purposes only.
2. Users shall not share their Secure Data Exchange Services password.
3. If the data contains e-PHI and/or PI as defined by the HIPAA/ARRA/HITECH acts and California Privacy and Security Laws, the user must ensure the confidentiality and security of data obtained adheres to the appropriate guidelines.
4. Acknowledge that inappropriate usage of the Secure Date Exchange Services may, at a minimum, result in DHCS revoking the privilege to utilize these services.
5. Submit new SDES request form if changes to the account are needed, such as delete, add or suspend user access or IP address changes.

Use of this system is monitored at all times. Anyone using this system expressly consents to such monitoring and is advised that if such monitoring reveals possible evidence of criminal activity, system personnel may provide evidence of such monitoring to law enforcement officials.

D. BROWSER/SYSTEM REQUIREMENTS

The standard “End User” of Xchange will connect to the server via the web based HTTPS interface. Below is a listing of officially supported (tested and approved) operating systems, java versions, and browser requirements.

MOVEit® DMZ has been tested against and fully supports the following major browsers:

- Internet Explorer
- Firefox
- Google Chrome
- Safari

Please ensure that your browser is routinely updated to the most current version compatible with your system.

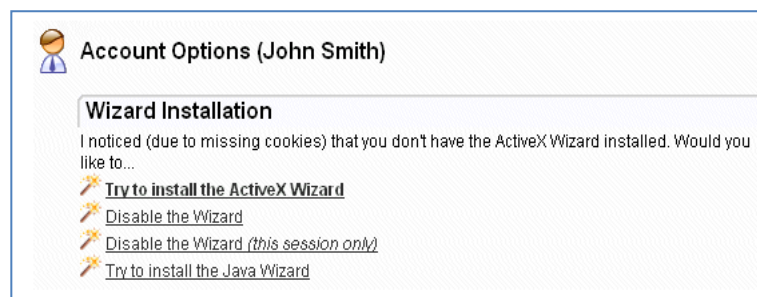

D.1 Upload / Download Wizard Installation

The MOVEit® Upload/Download Wizard affords web users a faster method to transfer files over the web than the usual web transfers performed via the built-in "upload" or "download" button, through the use of compression-on-the-fly. It also offers the ability to upload multiple files and displays transfers using a progress bar instead of the usual "spinning icon" in the corner of the web browser. Finally, the Upload/Download Wizard provides integrity checking; it proves that the file or files which were just transferred to/from the server are exactly the same as the files that exist on your local hard drive.

The wizard is not installed by default. **Upon first log in to the MOVEit® system, the user will be prompted to install the Wizard or to disable it.** MAXMUS highly recommends you install the wizard.

D.1.1 Microsoft Internet Explorer

Internet Explorer users will be sent to the ActiveX Wizard Installation page, which gives options to install the ActiveX Wizard, disable it, or disable it and install the Java Wizard.

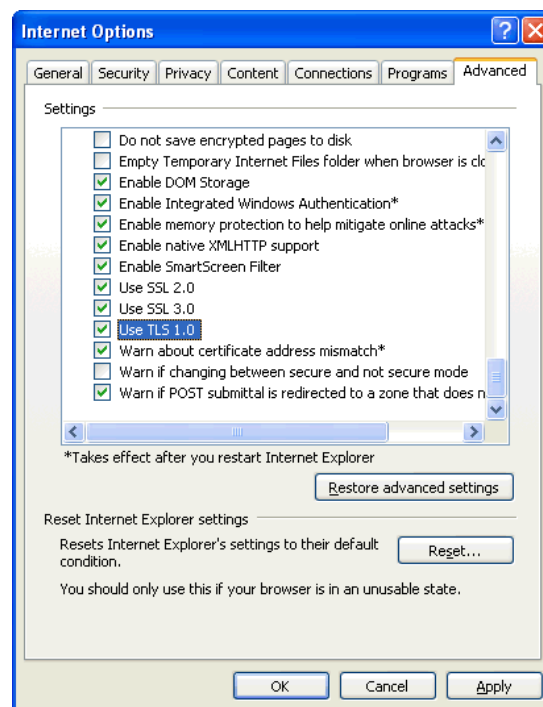

If you click “Try to install the ActiveX Wizard”, you will be sent to a page which will attempt to download the ActiveX control. This may take several seconds. You may need to alter your browser’s security settings to permit signed ActiveX controls to be installed in order to successfully complete the process. If you need help with the installation of the Wizard, contact your systems administrator.

If you choose Disable, you will not be prompted to install the ActiveX Wizard again unless you explicitly request it via the Account Options page. If you choose Disable (this session only), during the next browser session, you will be shown a link to install the Wizard.

Security Setting

You may also need to enable the TLS setting through Internet Explorer to enable this setting:

1. From the “Tools” menu through Internet Explorer, choose “Internet Options”
2. Click on the “Advanced” tab, click the “Use TLS 1.0” check box under “Security” settings
3. Click the “OK” button

Internet Explorer:

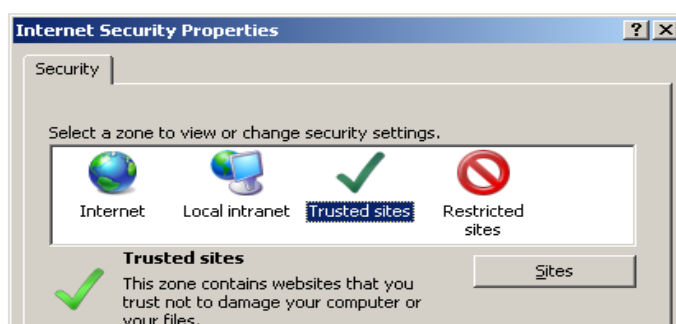

You may have to perform an extra step before you can use all the features of the Wizard, such as the ability to download multiple files at once. This extra step is to add any MOVEit® site you communicate with into your Internet Explorer list of “Trusted Sites”.

To change your security settings in this way, double-click on the “Internet” label (with the globe) at the bottom of your IE browser window.

An “Internet Security Properties” dialog window will be displayed. Click the “Trusted Sites” icon (the green checkmark) and then click the “Sites” button.

A list of existing trusted sites will appear and your MOVEit® site should be listed in the “Add this website to the zone” text box. Click the “Add” button to finish trusting your MOVEit® site, and use the “Close” and “OK” buttons to leave the window behind.

When complete, you should see a “Trusted sites” label (with a green checkmark) in place of the “Internet” label (with the globe) at the bottom of your IE browser window.

**D.1.2 Other Browsers**

The first time a user signs on to MOVEit® with a browser other than Internet Explorer (e.g. Firefox), MOVEit® will display a slightly different page with a link to install the Java Upload/Download Wizard. The Java Upload/Download Wizard is a component very similar to the ActiveX Wizard, designed for environments that can't run ActiveX controls.

The choices are similar to those for the ActiveX Wizard. If Java is not installed, the user can simply choose Disable to avoid being prompted to install the Java Wizard in subsequent sessions.

The choices are similar to those for the ActiveX Wizard. If Java is not installed, the user can simply choose Disable to avoid being prompted to install the Java Wizard in subsequent sessions.

D.2 Accessing the SDES Website

To access the website, copy and paste the following to the address bar of your web browser:

<http://healthcareoptions.maximus.com/sdes/>

Click on the Acknowledge Security Notice & LOG ON! link that appears on this page. Once you click this link, you will be taken to the MOVEit® website.

You may also click on the User Guide to obtain the most up to date version of this guide.

If you need to request a new account, or you wish to change the access you already have, click, Request or Change Access to obtain the Account Request or Access Change Request Form and instructions for submitting this form.

D.2.1 Log In

Once you have successfully accessed the MOVEit® application website the following screen will display:

On the MOVEit® website you will be required to provide a Username and Password.

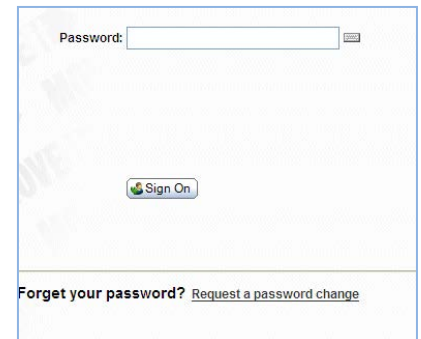

Enter your Username and Password and press the Sign On button.

- Your password is case sensitive!
- You will be required to change your password every 60 days.

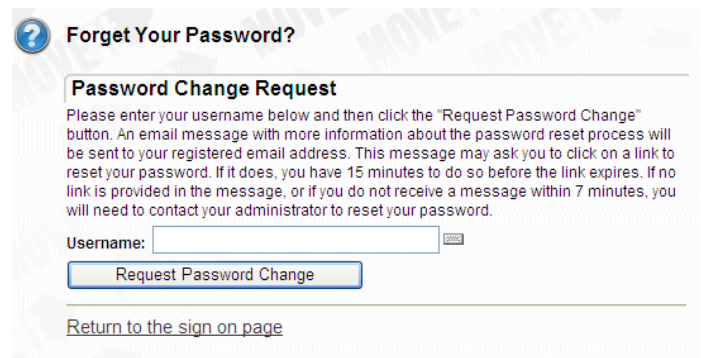

A screenshot of a web browser window displaying the 'Sign On' form for the MOVEit website. The form has a title bar that says 'Sign On'. Inside the window, there are two input fields: 'Username:' followed by a text box and a small icon, and 'Password:' followed by a text box and a small icon. At the bottom right of the form area, there is a button labeled 'Sign On' with a small icon to its left. The background of the page is light gray with a faint, repeating pattern of the word 'MOVEIT'.

D.2.2 Help with your password

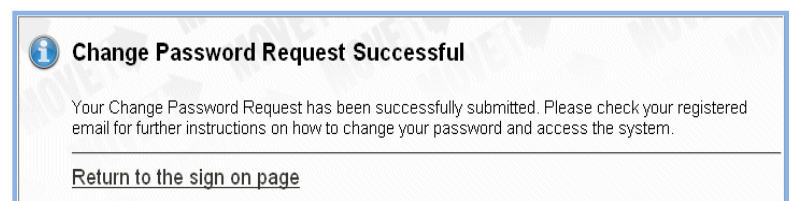

Should you forget your password, click the “forget your password?” link at the bottom of the sign on page

A screenshot of the MAXIMUS sign-on page. It features a 'Password:' label followed by a text input field and a small eye icon for toggling visibility. Below the input field is a 'Sign On' button with a green arrow icon. At the bottom of the page, there is a link that reads 'Forget your password? Request a password change'.

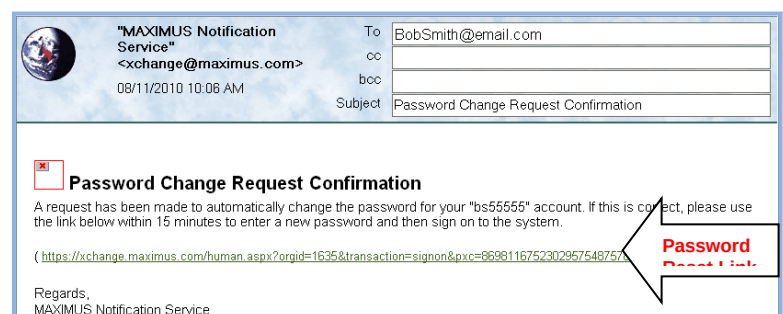

1. A screen will be displayed along with instructions about how to request a password change. Please read the instructions carefully!

A screenshot of the 'Forget Your Password?' screen. It has a blue question mark icon and the title 'Forget Your Password?'. Below this is a section titled 'Password Change Request' with instructions: 'Please enter your username below and then click the "Request Password Change" button. An email message with more information about the password reset process will be sent to your registered email address. This message may ask you to click on a link to reset your password. If it does, you have 15 minutes to do so before the link expires. If no link is provided in the message, or if you do not receive a message within 7 minutes, you will need to contact your administrator to reset your password.' There is a 'Username:' label followed by a text input field and an eye icon. Below the input field is a 'Request Password Change' button. At the bottom, there is a link that reads 'Return to the sign on page'.

2. A confirmation message will be displayed.

A screenshot of the 'Change Password Request Successful' screen. It features an information icon and the title 'Change Password Request Successful'. The message reads: 'Your Change Password Request has been successfully submitted. Please check your registered email for further instructions on how to change your password and access the system.' Below the message is a link that reads 'Return to the sign on page'.

3. Within a few minutes the user will receive their password change link via email. The link will only be active for 15 minutes, after that time, the user will have to submit another Password Change Request.

A screenshot of an email notification from 'MAXIMUS Notification Service' to 'BobSmith@email.com'. The email body contains a 'Password Change Request Confirmation' section. It states: 'A request has been made to automatically change the password for your "bs55555" account. If this is correct, please use the link below within 15 minutes to enter a new password and then sign on to the system.' The link provided is 'https://xchange.maximus.com/human.aspx?orgid=1635&transaction=signon&pxc=B698116752302957548757'. Below the link, it says 'Regards, MAXIMUS Notification Service'. A red arrow points to the link with the text 'Password Reset Link'.

4. The link will automatically take you to the MOVEit® website to complete the password reset process. The new password entered must comply with the password requirements a listed. Please read the requirements carefully before contacting the Help Desk for assistance

The screenshot shows the MOVEit dmz web interface. At the top, it says "Enterprise Managed File Transfer. Made Easy." and "Signed onto MAXIMUS as Bob Smith (bs55555)". There are links for "Home", "Logs", "Need Help?", "Online Manual", and "Tech Support". A message states "You are required to change your password now." Below this, the "My Account (Bob Smith)" section is visible, featuring a "Change Password..." form. The form lists requirements: at least 8 characters, not resembling the username, containing at least one letter and one number, not being a dictionary word, containing both upper and lower case letters, containing at least one non-alphanumeric character, and not matching any of the previous 3 passwords. There are input fields for "New Password" and "New Password Again", and a "Change Password" button.

D.2.3 Password Reset

Users are required to reset their password every 60 days, an email notification will be sent to you when your password expires. Follow the instructions in section C.2.2 of this user guide to reset your password

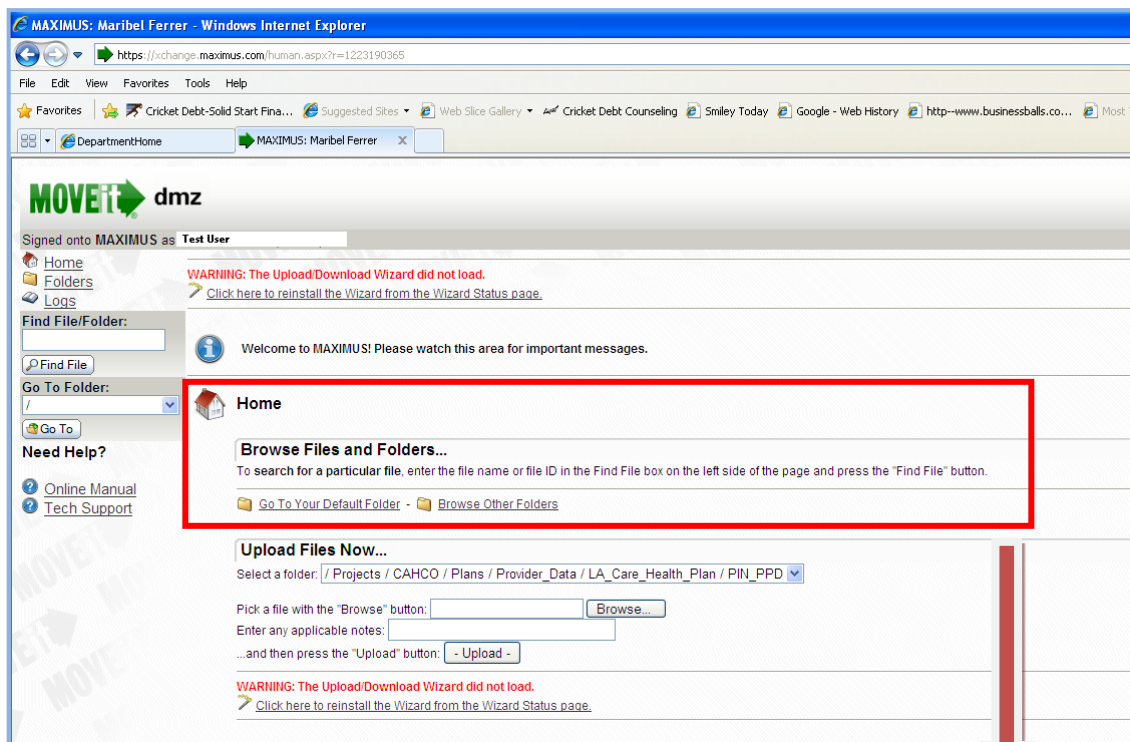

Warning User accounts will become locked out after 5 failed attempts in a 6 minute window. If you cannot remember your password, please use the password change request. Accounts can only be unlocked by the MAXIMUS CA HCO Help Desk.

Note: Users will timeout and be required to log in again after 20 minutes of inactivity. However, we recommend you log out anytime you need to leave your system unattended.

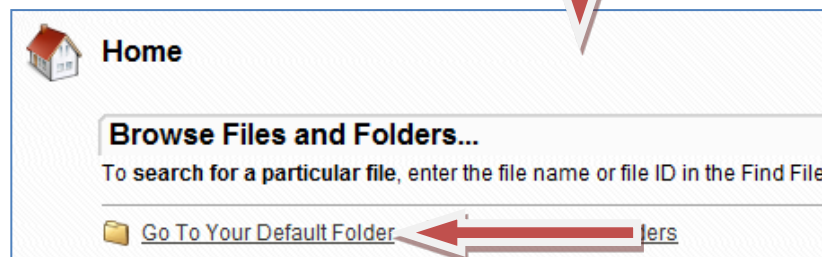

The screenshot shows a password reset form. It has a "Password:" input field, a "Sign On" button, and a "Forget your password?" link. A red box highlights the "Request a password change" link.

E. RETRIEVAL OF WEEKLY PLAN FILE DATA, MEDICAL EXEMPTION REQUEST (MER) AND EMERGENCY DISENROLLMENT REQUEST (EDER) DENIAL DATA

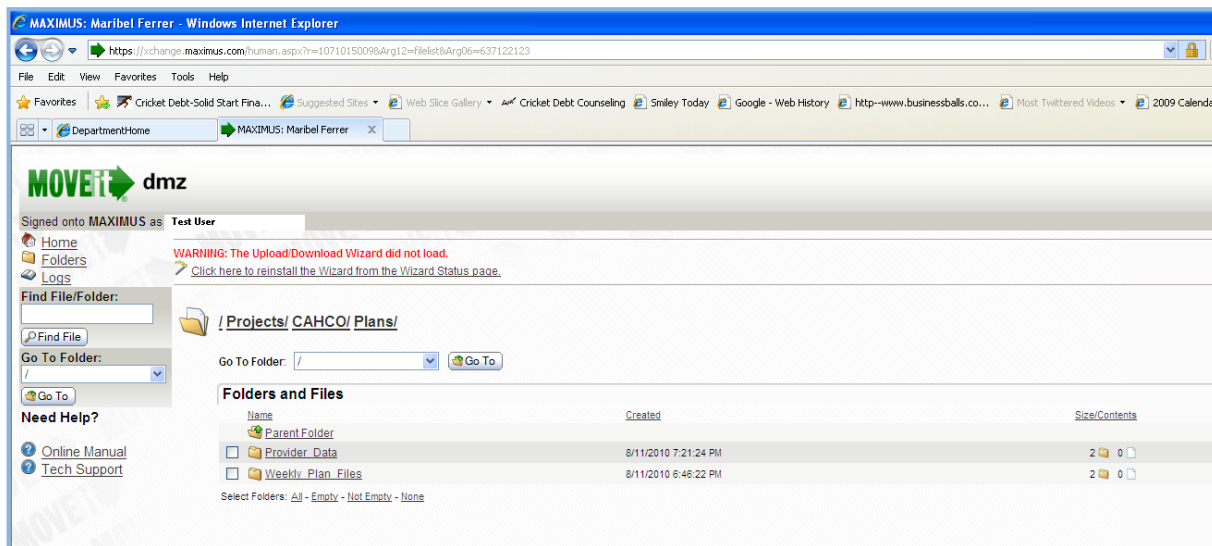

Once Successfully logged in, the following screen will display:

1. Click the "Default Folder" link located on your Home page.

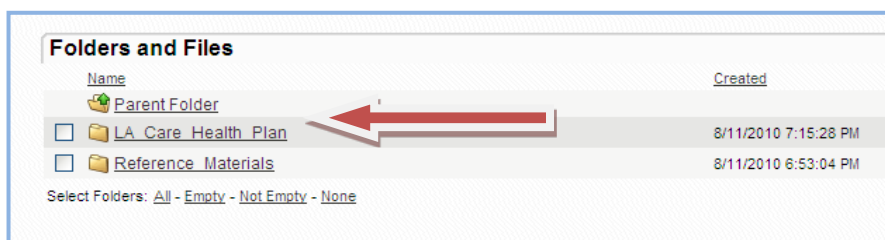

The following page will display:

- Click the "Weekly Plan Files" folder link.

- Click the named health plan folder link.

- The weekly plan files and Medical Exemption are displayed and available for download. Click on the selection box next to the file(s) you want to download and click the Download button.

[Advanced Copy/Move Options >>](#)

- Click the "save" button on the download wizard

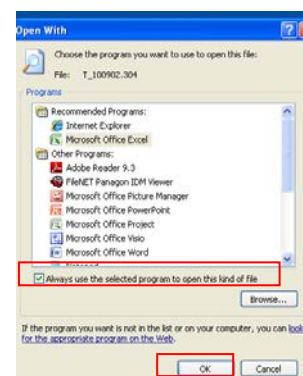

- Choose the appropriate file location for saving the file.

- The first time accessing the weekly plan file will require that you choose a program to open the file. It is recommended that you choose MS Excel or Wordpad to open and access the file information.

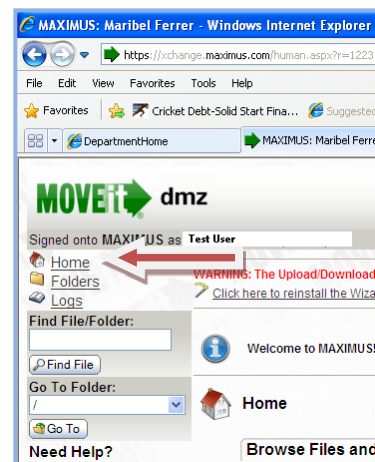

- To avoid this step in the future, click the "Always use the selected program to open this kind of file" checkbox.

- Click the "OK" button to open the file with the specified program.

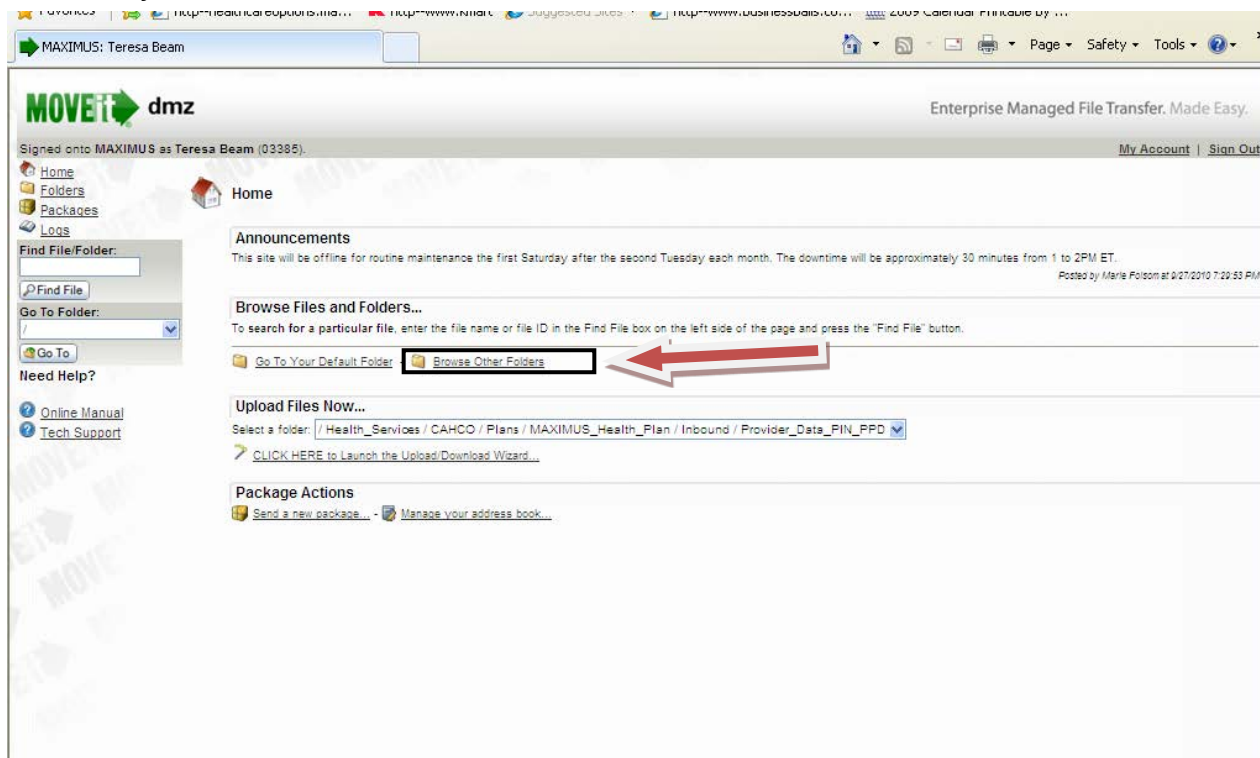

Note: These files are available for download for 90 days only. Files older than 90 days will automatically be removed the system.

10. To return to your homepage, click the “HOME” link to the left side of your screen

F. RETRIEVAL OF MEMBER EVALUATION TOOL (MET) DATA

To access the MET data from your home page, click on the “browse other folders” link in the middle of your screen.

1. The following will be displayed in the middle of your screen, click on "Health Services"

Go To Folder: **Folders and Files**

Name

	Health Services

7. The MET data files are displayed and available for download. Click on the selection box next to the file(s) you want to download and click the Download button.

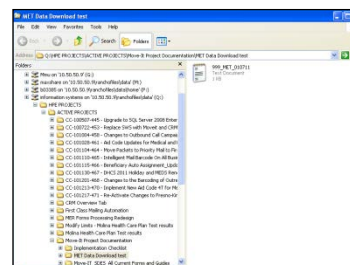

8. Click the “browse” button and navigate to the desired download file location, then click the “OK” button

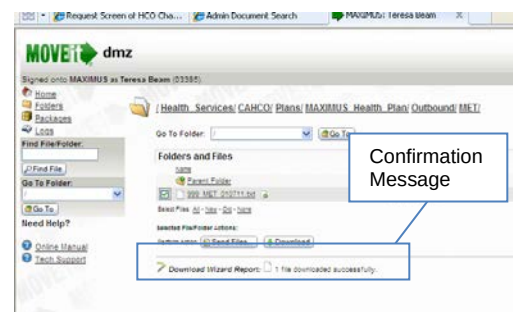

9. The transfer file wizard will appear, once file is downloaded, click the “open folder” button.

10. The downloaded file is displayed

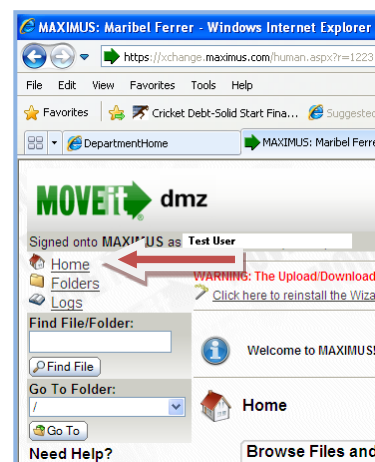

11. The SDES will provide a confirmation message once the file is successfully downloaded.

Note: These files are available for download for 90 days only. Files older than 90 days will automatically be removed the system.

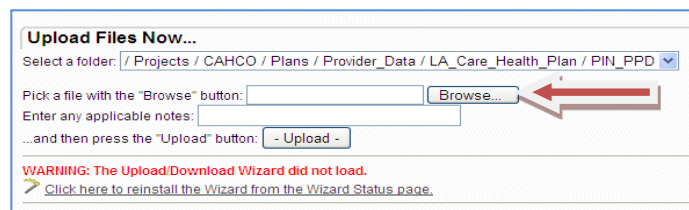

12. To return to your homepage, click the "HOME" link to the left side of your screen

G. UPLOADING THE PROVIDER (PPD/PIN) DATA FILES

Skip this section if you do not upload provider files.

1. From your homepage, click the "Browse" button to search for and choose the PPD_PIN file for uploading.
2. Enter any applicable notes (optional).
3. Click the "Upload" button

Note: Files must be named according to the following naming configuration, or the system will not upload the file:

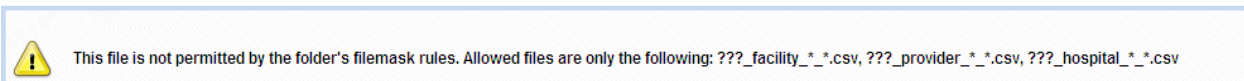

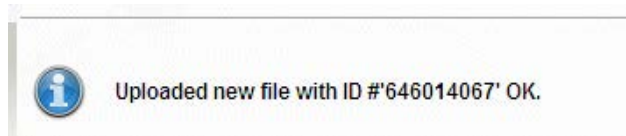

File Type	Mask
Provider File:	???_ PROVIDER _yyyymmdd_hhmmss. CSV Example: 352_PROVIDER_20101001_152158.CSV
Facility File:	???_ FACILITY _yyyymmdd_hhmmss. CSV Example: 352_FACILITY_20101001_152235.CSV
Hospital File:	???_ HOSPITAL _yyyymmdd_hhmmss. CSV Example: 352_HOSPITAL_20101001_152235.CSV

Where: ??? : is the three digit plan number
yyyymmdd: is a four digit year + 2 digit month + 2 digit day
hhmmss: is a 2 digit hour + 2 digit minute + 2 digit second

Files that do not match the above naming convention WILL NOT be loaded!

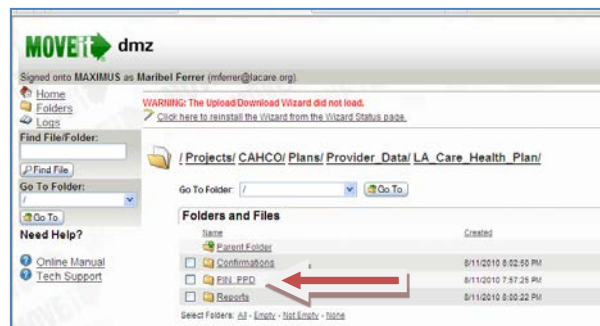

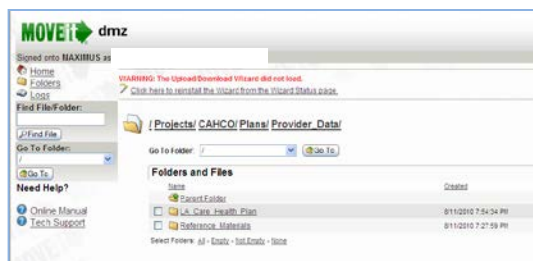

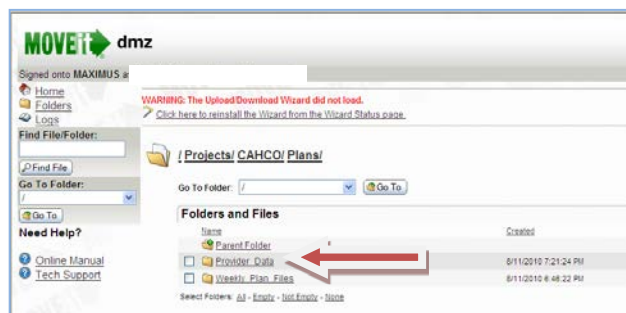

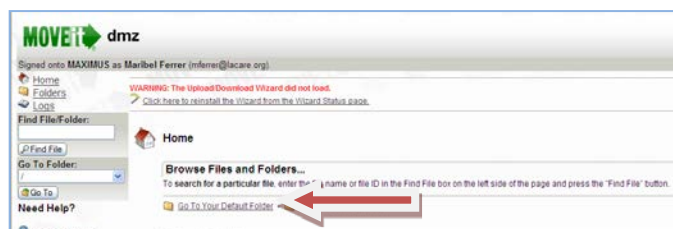

G.1 Confirmation / Error Messages

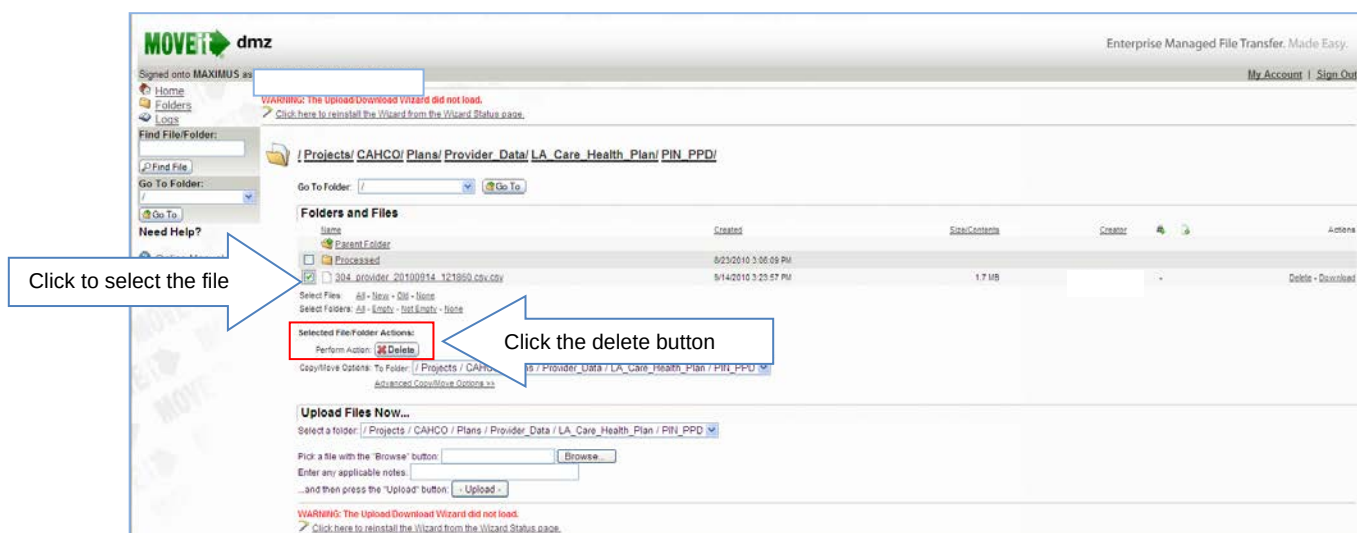

1. On successful upload a confirmation message will appear.
2. Should a file fail to upload, an error message will display. You will need to correct the problem and attempt to reload the file.

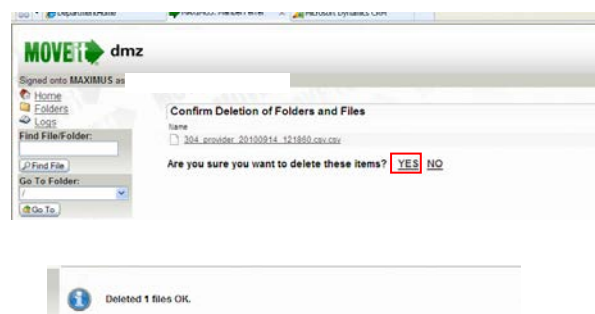

G.1.1 Deleting an Erroneous File

1. To delete an erroneous file, click on the "Go to your default folder" link
2. Click on the "Provider Data" folder
3. Click on the Named Health Plan folder
4. Click on the "PIN_PPD" folder, the following screen will display
5. Select the file, by clicking on the checkbox.
6. Click on the "Delete" button, in the Perform Action field

7. Click "YES" to complete the deletion process
8. A confirmation message will appear at the top of your screen, the process is complete.

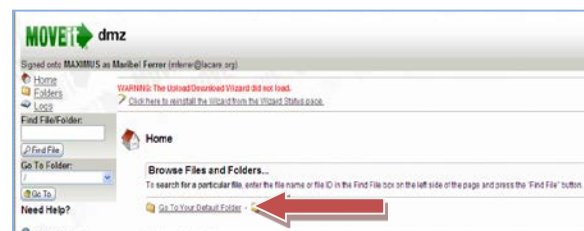

Note: If a file you previously uploaded is no longer found in this folder, it means that we are processing the file, contact the helpdesk **IMMEDIATELY**.

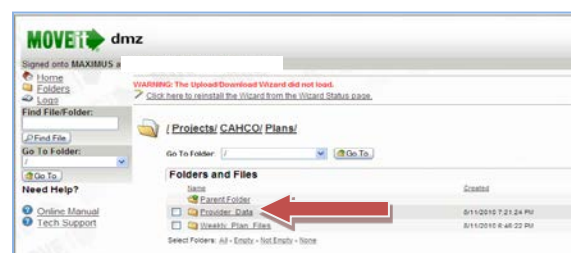

G.1.2 Confirmation and Demographic Change Reports

Confirmation and Demographic change reports are also accessible through the SDES.

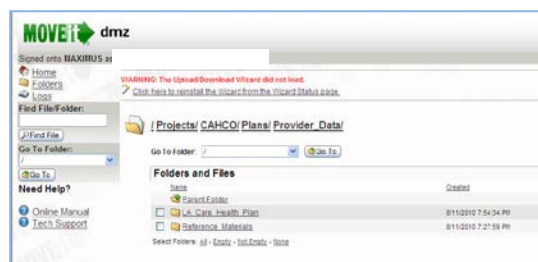

1. To access these reports, from your homepage, click on the "Go to your default folder" link

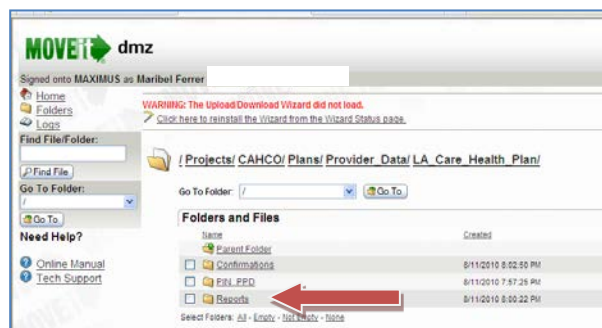

2. Click on the "Provider Data" folder

3. Click on the named health plan folder

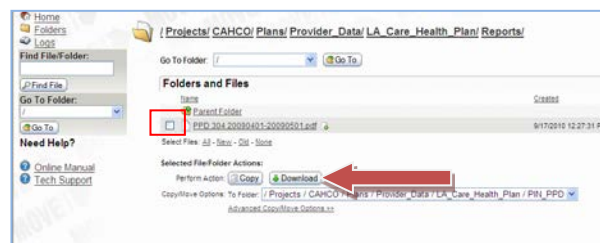

4. Click on the named health plan folder

5. Click the selection box

6. Click the Download button

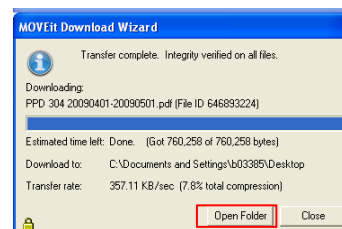

7. Choose the file location for the download

8. Click the OK button

9. The download wizard will display, once download is complete, click the "Open Folder" button to access the report

H. LOG OUT PROCESS

To log out of MOVEit®, click on the “Sign-Out Link on the top right hand corner.

Note: Users will timeout and be required to log in again after 20 minutes of inactivity. However, we recommend you log out anytime you need to leave your system unattended.
